Chandag Primary School

Year 4 Term 1

English

This term our fiction unit will be based on The Tin Forest by Helen Ward. We will be using interesting vocabulary to write setting descriptions.
Our non-fiction unit is The Great Kapok Tree by Lynne Cherry, all about the Amazon Rainforest. We will use this as a basis for persuasive speeches.

Our whole class novel is 'Llama Out Loud' by Annabelle Sami which is an adventure book about a quiet ten-year-old girl and her chatty toy llama.

DT

In DT, we will be cooking this term. The children will be thinking about taste and flavour and looking at biscuit recipes.

In PSHE the children will begin the year by reflecting on rules, rights and responsibilities. This includes producing their own set of rules for the classroom to make sure that everyone can be their best. Our PSHE lessons are delivered through oracy where the children will develop different skills to ensure their voice matters.

Maths

Block 1 – Place Value
Block 2 – Addition and Subtraction

At Chandag Primary School we use White Rose Maths as a basis for our lessons.
All children will be participating in reasoning and problem solving daily, as well as general fluency.
There will also be a continued focus on Times Tables in preparation for the end-of-year test.

Computing

This term we will be concentrating mainly on internet safety, thinking how to protect ourselves when we use the internet. We will also be thinking about how computers are connected and how they can be used in school.

RE

In this term's RE we will look at the Christian Creation story and reflect on how we can be looking after our world.

Chandag Primary School

Year 4 Term 1

Geography

Our focus this term is on our local area, looking particularly at National Parks and other protected areas. We will look at areas nearby in Wales and Devon and think about how and why they should be protected.

We will look closely at how human activity including tourism affects an area, thinking about processes such as erosion and climate change. We will also practice our map skills and recap how to use ordnance survey maps and aerial photographs.

PE

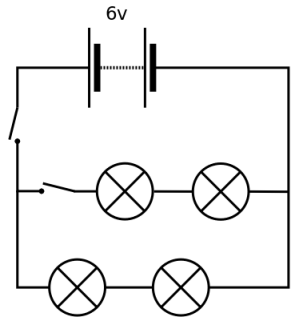

Our PE learning outdoors will be football.

Our PE learning indoors will be on health and fitness with a focus on mindfulness.

Science

This term's science is around electricity. We start by investigating different components of circuits and explore how switches can be used. Then we will look at how different materials act as conductors or insulators of electricity in real life contexts. Lastly, we will investigate which materials can be used as conductors or insulators, and what applications this could have in real life.

MFL

The children will be learning different ways to present themselves through the will be n 'Je me present' scheme of learning. This will be through greetings, asking for names, location and age and knowing how to respond. They will also learn and consolidate numbers up to 20.

Music

This unit has a focus on creating a performance with singing. We shall explore a range of different songs and how we use different techniques for different affects.
