Alternative Rooming Arrangement (or ‘Smaller Room’)

- Alternative Rooming is an access arrangement where a candidate sits examinations **outside of the main hall**, typically in a smaller space with other students with similar needs.
- The award **does not** entitle a student to a room of their own, and this only happens in a very few cases.
- The alternative room might be one of the two Exam Huts, or a room somewhere else in school that is used by the Exams Team.
- Students are informed of their allocated rooms via Exam timetables.
