Brunel Class

Fantastic Fairy Tales

Explore ∞ Discover ∞ Aspire

English

We will be reading the traditional tale 'The Three Billy Goats Gruff'. The children will accurately use capital letters, full stops and finger spaces in their writing and will learn how to use expanded noun phrases to add more detailed description. Towards the end of the unit, we will plan, write and edit our own traditional tale.

Maths

Addition and Subtraction of Two-Digit Numbers (1): We will use practical resources and efficient methods to add and subtract a one-digit number and a two-digit number. We will also learn how to find ten more and ten less than a number.

Shape: We will be exploring a variety of 2D and 3D shapes. The children will describe the properties of these shapes, including the number of sides and lines of symmetry in 2D shapes and the number of edges, vertices and faces in 3D shapes.

Science

This term we will be learning about animals and their offspring. The children will recognise that animals and humans have offspring which grow into adults, and we will compare the differences. We will also learn about the three main needs of animal and human survival (water, food and air).

Geography

This term we will be developing our map skills. We will use four-point compasses to navigate around the school grounds and identify features of our local area on aerial photographs and plan perspectives. Towards the end of the unit, we will use our knowledge of maps to create our own map of the school grounds. We will also study our local area and identify a range of human and physical features.

DT

We will be designing, making and evaluating our own accessory for a character from a traditional tale. We will explore a range of different fabrics and learn how to join two pieces of fabric together using running stitch. We will also learn how to attach buttons and sequins using a needle and thread.

Music

This term we will be focusing on pulse, rhythm and pitch. The children will learn how to find and keep a steady beat, read and respond to chanted rhythms and begin to sing together as a group.

RE

We will explore the impact Allah has on the lives of Muslims. We will discuss the questions: Who or what is special to us? What do our lives revolve around? How do we show each other how special we are?

Jigsaw

We will be looking at the puzzle piece 'Celebrating Difference'. We will explore and discuss how we are all different from each other in many ways. We will also understand that we should not stereotype and that it is ok to be different.

PE

Invasion games: We will be learning how to accurately send a ball in different ways. We will also play a range of simple games to improve our attacking and defending skills.

We will be looking at our **social cog** in our Real PE lessons.
