

Ear defenders/plugs

- An exam arrangement for ear defenders/plugs is a reasonable adjustment that allows a student with special educational needs, disabilities, or anxiety to use non-electronic ear defenders/plugs during an exam. This may help the student to focus and self-regulate.
- These will be provided by the Exams Team. Students can use their own, but they must be checked by the Exams Team ahead of the exam.
- The arrangement must reflect the student's normal way of working in class tests/assessments.
